

# CANDY WRAPPERS - ASSORTED

Cut out right inside the gray line. Wrap around miniature candy bar for placement. Then add glue and hold until it stays (a couple of seconds). Use either standard glue or a glue stick.

PRINTING NOTE: If your wrappers are not fitting the mini candy bar, your printer might be enlarging or reducing the page. The wrapper (including the glue area) should be 3.25" long. Check your printer settings to make sure it is printing at 100%.
